05-DEC-2017, Signed by: [REDACTED]

**Approving Official and Date:**

[REDACTED]  
[REDACTED]  
07-DEC-2017, Approved by: [REDACTED]  
[REDACTED]

**SYNOPSIS**

On November 20, 2017, [REDACTED] conducted a site visit at Culbertson Facility and viewed the remnants of net pen #2.

**DETAILS**

On November 20, 2017, Members of the Washington State Departments of Ecology, Fish and Wildlife, Natural Resources, [REDACTED]  
[REDACTED] conducted a site visit at the Culbertson Facility in Anacortes, Washington.

At the Culbertson Facility, the remnants of Cooke Aquaculture's net pen #2 were placed in a large field and arranged for viewing.

While reviewing the structure with engineers of the aforementioned agencies, I took multiple pictures of the structure.

The person responsible for the placement of the equipment was unavailable for questions so another site visit will be held in the future.

The photographs were placed on a DVD on November 21, 2017, and placed in the Seattle Area Office evidence room.
